SOLID WASTE FACILITY PERMIT

Facility/Permit Number:

23-AA-0040

17. LEA Conditions:

1. The design and operation of the facility must comply with all state, and local requirements.
2. The facility will conform to the June, 2000, Ukiah Transfer Station Transfer/Processing Report.
3. This permit is subject to review by the LEA and may be modified, suspended, or revoked for sufficient cause following a hearing.
4. The operator will comply with the monitoring and reporting program established in Item 16 of this Solid Waste Facility Permit.
5. The operator shall not make any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit or supporting documents.
6. Storage of hazardous waste shall not exceed 90 days.
7. The facility will have adequate lighting to insure worker and user safety.
8. Municipal solid waste (MSW) will not be stored on site longer than 24 hours. Under emergency circumstances MSW can be stored on site in a sealed container for up to 48 hours.
9. The facility, including tipping floor, will be cleaned on a daily basis. The tipping floor will be wet cleaned at least once per week. Drains on the tipping floor will be cleaned at a minimum of once per month. Periodic steam cleaning of the tipping floor will be required when grease or odor buildup is detected.
10. White goods, scrap metal, and green waste will be removed as necessary, or at the direction of the LEA, to prevent stored volumes from impacting efficient operations at the facility.
11. An adequate number of transfer trailers will be dedicated to the facility to insure that MSW is removed within 24 hours. Four transfer trailers have been dedicated to the facility to handle the initial projected average MSW intake. The LEA will require additional transfer trailers to be committed to the facility under circumstances where MSW is stored on the tipping floor for longer than 24 hours.
